

Notes for Dual-Degree Biology/Biology Education Students:

Students adding a Biology Degree need 27 credit hours of General Education Courses—9 of these hours need to be at the 2000+ level.

Breakdown of General Education Requirements:

1. 6 total hours of Behavioral Sciences
 - A. Psychology 1000 (required)
 - B. Student choice of a 2000-level Behavioral course

2. 9 total hours of Social Sciences
 - A. History (required)
 - B. Political Science (required)
 - C. One of the required teacher development courses will finish this requirement.

3. 12 total hours of Humanities
 - A. Communication 1200 (required)
 - B. Student choice of a World International 2000-level course
 - C. Student choice of a 2000-level Humanities course
 - D. One of the required teacher development courses will finish this requirement.

Variations and hints:

1. History 2210, if chosen to meet the history requirement, will count towards the 9-credit-hour requirement for 2000-level General Education classes.

2. Language minors in Spanish and French will take two literature classes (3420 and 3430) that count as Humanities.

3. Biology 3650 (Ecology) is offered fall semester only and is Writing Intensive (WI).

4. Biology 3210 (Plant Systematic) is offered spring semester only.

5. Students will choose their Biology Capstone course. Selections vary by semester.

6. Any student might have unique exceptions that could change the Plan of Study (for example, the addition of a minor, Unified Science, or Middle-School certification).
